

MICRO-MONSTERS - Assembly Instructions

Cut out the monster. The blue areas under the arms can be left or can be removed using scissors or an exacto knife. Fold the lower green tab downwards. Then fold the black tab downwards and fold the upper green tab (with the monster's feet) upward. Glue the two green tabs to the unprinted side of the black tab, forming a T shaped base for the monster. If you prefer a black base, you can darken the finished base with a black marker.

For use in coffins (from the Hearse Playset or the Hidden Cemetery), just cut out the monster and then cut around the monster's feet and discard the tabs. Curve the monster around a pencil if it's too wide for the coffin.

1.5 inch MICRO-MONSTERS

(2 inch monsters are on the next page...)
